3 The San Comm's proposal relates to a suitable designation being given to the first assistant to the Director Public Health Institute with a view to obviate certain difficulties mentioned in San Comm's letter.

4 Mr. Manker was appointed asst chemical Examiner in notification dated 29th July 1916, but in notification dated 24th Feb 1917 it is stated that he will continue as 1st assistant to the Director in the Public Health Institute. If Mr. Manker still continues as asst Chemical Examiner, it is not clear why it should not be changed to 'chemical Examiner' when the former designation will quite serve the practical purposes.

Sir,

With reference to Government order No. 5113-63 San. 86-13-35 dated the 8th February 1917, directing that the Senior Assistant will be in direct charge of the Public Health Institute, I have the honor to request that Government be moved to designate him as "Senior Assistant Director and Chemical Examiner". Mr. Manker has been doing all the work relating to the Chemical Examiner's office himself and so far as I am aware, there is no object served in my continuing to be designated as Chemical Examiner. In the first place, the position is inconsistent with my new duties as Sanitary Commissioner; and in the next place, the courts in the Civil and Military Station require the Chemical Examiner himself to give evidence in person- a procedure that was open to no objection until recently but which now will cause no little inconvenience in the matter of my arranging my tours. I may add that the change of designation proposed involves absolutely no relaxation, in any branch of work
